OLARM PRO		
The Olarm PRO smart security communicator keeps you secure—even during load shedding. With simultaneous Mobile + WiFi signal routing, serious alerts are always delivered via the quickest possible connection for ultimate reliability. Olarm PRO seamlessly integrates with the world's most trusted alarm brands. The hardest part is locating your alarm panel (usually hidden in a cupboard somewhere!) Once connected, Olarm PRO automatically configures itself to your alarm panel settings. It's smart security, simplified.

Polophone for easy installation. Connect up to 5 components (e.g. 1 entry panel & 4 handsets or 2 entry panels & 3 handsets), using only 2 wires. Connect the 12V DC supply to the nearest component in the system, either entry panel or handset. For instance if the entry panel is at the gate entrance with an operator that can provide 12V DC, connect the entry panel directly to this power. Alternatively plug in a 14V DC power supply into an electrical socket inside the building and connect this to the nearest handset

SP004	Line Clamps SMALL 6mm Mini nut and bolt for electric fence connections for wall-top and small fences using braided steel wire or stainless Steel wire	R 1.85
DAF004	Line Clamps LARGE 8mm Galvanized large nut and bolt for electric fence connections for larger fences using thicker high tensile steel wire. The line clamps are used for the larger wire diameters. Can connect after the wire has been installed. Galvanised for a long life	R 2.85
S0053	Lug 6 * 35mm (Standard) for use with 8mm Stay	R 7.88
NEM016	Lightning Diverter KIT LDK1 Offers protection for a single zone fence energiser	R 375.87
NEM283	Lightning Protection SINGLE POLE - LID	R 120.22
NEM411	Lightning Protection DUAL POLE - LIDii	R 251.28
S0004	Sliding Gate Contact - Stainless Steel - Std Single HV contact for sliding gates. Facilitates out of circuit gate connection. Stainless Steel	R 160.09
NEM403	Sliding Gate Contact - in Line SGC07 Transfer circuit over gate without digging. Double HV contact for sliding gates. Facilitates in circuit (in-line) gate connection. Dual plunger system keeps fence circuit closed while gate is open. Used for series wiring of the gate. Robust construction using stainless steel and brass, making it suitable for outdoor use in most climates	R 394.24
NEM499	Sliding Gate Contact - In Line - 3 Way	R 547.47
NEM500	Sliding Gate Contact - Universal Bracket	R 265.07
NEM291	Sign Boards - DAFRON Custom PAD Used as a visual warning against inadvertent contact. To be installed every 10m and on all access points,gates etc	R 11.33
S0052	Stay Clamps 10*12 Rubber for Round Bar Flexible stay clamp with nut and bolt, for attaching to other end of corner bracket stay & round bar	R 9.12

NEM045	Spring Hook S-HOOK Hot dip galvanized for long life expectancy. Heavy duty durable design. Suitable for the Omega Brackets, angles and round corner poles	R 3.51
NEM319	Spring Hook Free Standing HDG - 90Deg	R 6.90
NEM259	Spring Hook Free Standing HDG - 180Deg	R 7.27
NEM004	Mini Nylon titan tensioner The fence needs to be tensioned after installation, especially when the system needs maintenance Due to sagging * It eliminate galvanic reaction between dissimilar metal thus reducing rust * Ideal for tensioning wires up to 1.2mm galvanized or stainless steel, and up to 1.6mm aluminium wire * A large headed screwdriver, which is generally easily available, is used to turn the spindle	R 5.67
NEM114	Hybrid BB (BIG BOY) Heavy Duty Nylon Tensioner A Hardy tensioner for all weather types * Can tension from a 1.2mm up to a 2.5mm Wire, making it very versatile It eliminated galvanic reaction between dissimilar metal thus eliminating rust and can be used with any type of wire	R 12.94
S0054	Standard Tensioner (Donaldson) Galvanized permanent fence wire strainer. Can tension from a 1.2mm up to a 2.5mm wire. Only used for galvanized wires to avoid galvanic reaction. (Ratchet tensioning device for free-standing or long fences)	R 9.73
M1003	Combo Tensioner Standard Insulator and tensioning system combined, minimizing the need for an insulator * Hot dip galvanized body * Can tension from a 1.2mm up to 2.5mm wire * Only used for galvanized wires to avoid galvanic reaction	R 16.91
NEM134	Combo Tensioner Porcelain Insulator and tensioning system combined * Hot dip galvanized body * Fireproof Insulator	R 17.19

M1021	Insulator - Nail On Black Plastic Nail on Insulator Large clips for heavy duty applications with thicker wires * Larger clearance to eliminate power leakage.	R 1.35
NEM264	Insulator - OMEGA with Clip - BLACK	R 1.83
NEM405	Insulator - Picket - BLACK - Incl Clip	R 2.07
NEM425	Insulator - Shield Insulator - Black	R 2.01
NEM015	Insulator - Y Standard - Black - Incl Clip Quick fit design- easy to replace when required * Suitable for Omega and Y Standard bracket * anti-climb shear pin	R 1.74
NEM157	Strain Insulator ULTRA - Black * Suitable for fences using up to 3mm wire * larger creepage distance to reduce power loss	R 2.75
NEM556	Strain Insulator - ULTRA Black Hardened	R 5.24
FIREPROOF INSULATORS		
Fireproof insulators are generally used on game farm or farms where the likelihood of fire is high. These Nemtek insulators are made of Porcelain and can withstand high temperatures for a prolonged period of time		
NEM116	Bobbin Porcelain Large Fireproof Large design to reduce power loss. Suitable for long runs, Can withstand high tension	R 3.70
NEM133	Strain Insulator Porcelain Fireproof Large design to reduce power loss, Suitable for long runs, Can withstand high tension	R 7.27
